## Protein skimmer Bubble King® DeLuxe 200 external Product no.: 76

Protein skimmer Bubble King® DeLuxe 200 for external filter assembly in aquariums of 700 l to 1.500 l.

The skimmer is equipped with a Red Dragon® Bubble King® skimmer pump from Royal Exclusiv®, installed on the side. The complete piping technique is housed in the white PVC sub-structure.

A continuously height-adjustable telescopic tube is intended for water level regulation. The side vertical swivelling water outlet has a tube diameter of 50 mm. For the fine adjustment of the water level, there is also a 360° pivotable PVC torque tube with a fitted dismountable simple silencer.

The perforated Plexiglas lid can be opened by loosening the M6 titanium hexagon socket screw in the centre.

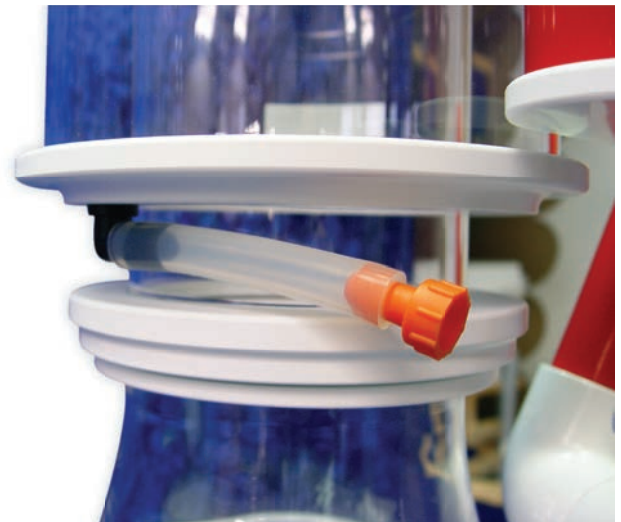

The complete skimmer cup can be unscrewed from the pillar tube. The lift height required for this is 30 mm. A pivotable tap is fitted to the bottom for draining off the absorbate.

The skimmer pump is equipped with a descaling bypass. The connection of skimmer and pump is done, suction- and pressure-side with silicone hoses. This silicone hose connections are with V4A broadband clamps (hose band clips) secured. The 9 mm silicone tube connects the air intake between pump and resonator.

For the operation of the skimmer an additional driver pump is to connect, which supplies the foamer with the water to be filtered. The sockets provided for this purpose has a diameter of 25 mm. The required performance of the drivers pump is located between 200 - 1.500 l / h.

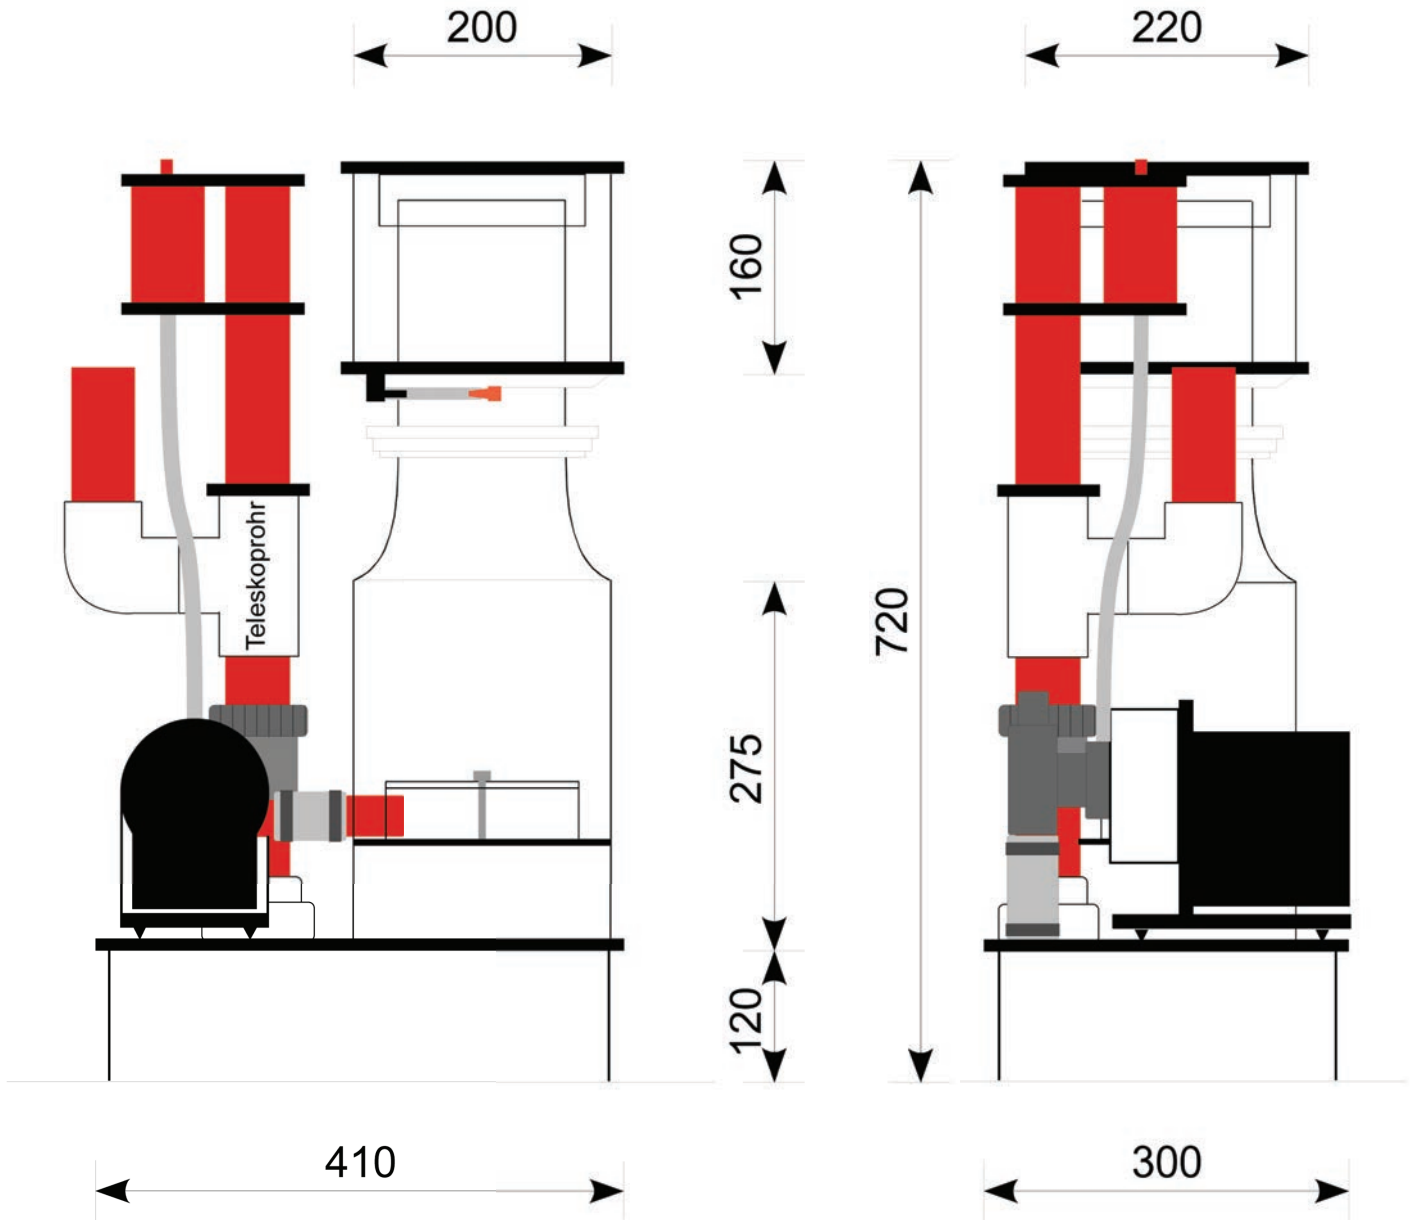

### **Important maintenance information!!!**

**For the smooth functioning of the protein skimmer, the skimmer pump must be regularly cleaned and decalcified!**
